

The Nannerch Players

Equalities Policy Statement

We live in a society made up of people with many differences – whether to do with, amongst others, race, language, culture, gender, sexuality, religion, disability etc. We know that conflicts and tensions exist in our society and that there are many injustices arising from differences and diversity between people. At, the Nannerch Players, we are committed to challenge these injustices whenever they arise.

We believe that all people are equal and that the differences between all should be respected.

In line with this belief, we aim to make all people feel welcome and part of the group and so racist and any other discriminatory comments, behaviours or harassment are not acceptable in any form. Such behaviours will not be tolerated and will be challenged in line with the group's constitution.

Any such behaviour should be reported to one of the Management Committee and if a majority of the members agree that person will be asked to leave the group.
